**W**ant to be sure a sign shop will provide you high-quality work? Find out what accolades they have received for their workmanship. The husband-and-wife team of Charity and Gavin Jackson, owners of Visual Horizons Custom Signs, have been recognized for their designs numerous times. They have been featured in trade magazines on several occasions over the 12 years that they have been in business. Whether it's a full vehicle wrap or single vehicle graphic, the full-service commercial sign company provides high-quality work. The company also does engraving, logo design, electrical signs, banners and other types of signs.

The Jacksons have increased their sales every year and in 2005 moved to a 6,000 square foot facility on Kansas Avenue. In addition to satisfying their varied customers, the Jacksons treat their employees like family. "We've learned to 'work smarter, not harder' over the years to balance work and life," says Charity Jackson. "In the future, we plan to continue doing what we do best: creative, effective design work and great customer service."
