

DECAL INSTALLATION

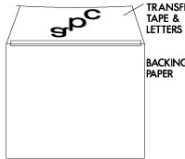

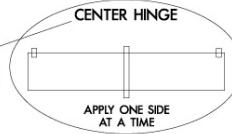

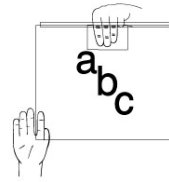

BE SURE TO START WITH A CLEAN, DRY SURFACE

1. PUT TAPE IN TOP CORNERS OF DECAL. USE THIS TO HELP YOU LINE UP THE DECAL LEFT TO RIGHT AND UP AND DOWN.

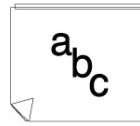

2. CREATE A TAPE "HINGE" BY PUTTING A STRIP OF TAPE ACROSS ONE SIDE OF THE DECAL. THIS HINGE CAN BE ACROSS THE TOP, BOTTOM OR SIDES. FOR LONG DECALS CREATE A "CENTER HINGE" BY PUTTING A STRIP OF TAPE DOWN THE CENTER OF THE DECAL. DOING THIS YOU WILL BE APPLYING ONE SIDE AT A TIME.

3. THE HINGE WILL HOLD THE DECAL TO THE SURFACE. FLIP THE DECAL UP (OR TO THE SIDE DEPENDING ON THE HINGE) & THEN PEEL THE BACKING PAPER BACK, & THROW IT AWAY. ON A "CENTER HINGE" YOU WILL PEEL ONE SIDE BACK AT A TIME. THE FIRST SIDE YOU'LL HAVE TO CUT THE BACKING PAPER OFF.

YOU WILL BE LEFT WITH THE TRANSFER TAPE WITH THE LETTERS STUCK TO IT.

4. HOLD THE TRANSFER SHEET & LETTERS AWAY FROM THE SURFACE WITH ONE HAND. USING A SQUEEGEE OR CREDIT CARD APPLY THE GRAPHIC. TO DO THIS START IN THE MIDDLE AND PUSH DOWN WITH THE SQUEEGEE THEN SLIDE IT TO EACH SIDE, DOING THIS PUSHES THE AIR OUT AND LAYS THE GRAPHICS ON FLAT. BE SURE TO APPLY AMPLE PRESSURE.

YOU CAN USE WATER TO APPLY THE GRAPHIC FOR ADDED SECURITY. FILL A WATER BOTTLE WITH WATER & ADD ONE DROP OF DISH SOAP. SHAKE IT UP AND LIGHTLY MIST THE PEELLED BACK GRAPHIC. YOU MAY NEED TO WAIT LONGER BEFORE PEELING OFF THE TRANSFER SHEET ONCE APPLIED. AVOID OVER WETTING THE SURFACE OR DECAL & BE SURE YOU DON'T GET THE BACKING PAPER WET WHILE IT IS STILL ON THE DECAL.

5. AFTER YOU APPLY THE DECAL, SLOWLY PULL BACK THE TRANSFER MATERIAL, PULLING IT BACK FLAT AGAINST THE SURFACE (TO AVOID PULLING UP THE LETTERS). YOU SHOULD BE LEFT WITH JUST YOUR LETTERING. IF YOU HAVE ANY BUBBLES YOU CAN PRICK THEM WITH AN XACTO BLADE OR NEEDLE & THEN PUSH THE AIR OUT OF THE HOLE.

LETTERING CAN BE CLEANED WITH SOAP & WATER OR GLASS CLEANER.
